December 9, 2016
Pflege in der Nephrologie / Soins en Néphrologie / Cure in Nefrologia
Dear Colleagues,

With great pleasure we invite you to the 48th annual meeting of the Swiss Society of Nephrology in Interlaken.

The innovation of the 2016 meeting will be a more complete and effective integration of nephrology nurses into the congress. Strengthening the links between nephrologists and nurses, with the aim of acquiring a common knowledge and of developing a combined approach to many shared issues, is becoming increasingly important and critical.

After a successful revival last year, the poster walk will be taken one step further and the question time will be increased in each of the “big four” in nephrology: basic science, clinical nephrology, dialysis and transplantation.

The CME will be focused on clinical nephrology and dialysis with lectures centered on three critical issues: nephrolithiasis, hypertension, and hyperkalemia, hypotension and disequilibrium in hemodialysis.

The state of the art lectures will be dedicated to four topics of current interest for our community: acute kidney injury, cardiorenal syndrome, anticoagulation on dialysis and bioengineering in nephrology.

Our industry partners have taken great care to support the society meeting and sponsor symposia with scientific value which we encourage you to view as a full part of the scientific program.

Last but not least, on Friday afternoon, the farewell words of the president of the society will be preceded by a session shared with the nurses and dedicated to three hot topics: dialysis withdrawal, medication adherence and potential toxicity of herbal remedies.

So let’s meet again in Interlaken, share the amazing research, knowledge and projects which come from our very active nephrology community; let’s also meet each other again and enjoy a familial place.

An industrial exhibition will take place at the Congress Venue. It will be open throughout the congress. Coffee (breaks) will be offered by exhibitors.

Hotel booking
Hotel reservation possible with Interlaken Tourismus on www.interlaken.ch.

Abstracts
The abstracts must be submitted until September 1, 2016, only via Internet on www.swissnephrology.ch. The deadline will not be extended.

Confirmation
Scientific contributions (oral presentations and posters) will be reviewed and confirmed to authors by e-mail in week 40.

Oral Presentations
The Scientific Committee will select a number of abstracts which will be presented as oral presentations.
Speaking time: 8 min and 2 min discussion.
General information

Posters
The abstracts accepted as poster will be presented in the poster exhibition.
Dimensions of posters: height 120 cm x width 90 cm (portrait).

Posterwalk
There will be an organized Posterwalk on Thursday, December 8, from 17 h 30 to 18 h 30 where the highest rated posters in each category will receive the Poster Prize Award:
- Clinical Nephrology / Hypertension / Mineral / Electrolytes
- Basic Science / Genetics / Experimental Nephrology
- Hemodialysis (HD) / Peritoneal Dialysis (PD)
- Transplantation
we thank each author to be present near his / her poster during the posterwalk

Poster Prize Awards
will take place during the Congress Dinner on December 8, 2016.

Registration
Authors presenting an accepted paper or poster must register to attend the meeting and pay the appropriate registration fee.

Basic science / Genetics / Experimental Nephrology

P 01 Renal arterial resistive index in patients with lupus nephritis: correlation with disease activity and biopsy parameters
Mohamed Hasab, Eman Khalil
Department of Internal Medicine, Medical Research Institute, Alexandria University, Alexandria, Egypt (EG)

P 02 An in vitro model of idiopathic membranous nephropathy reveals PLA2R- and complement-dependent pathways of podocyte injury
George Haddad1, Rudolf Wüthrich2, Andreas Kistler1
1University of Zurich, Zurich; 2Division of Nephrology, University Hospital Zurich, Zurich

P 03 Demography of the dialysis population in Switzerland
Rebecca Winzeler, Patrice Ambuehl
Renal Division, Stadtskimp Waid Zurich

P 04 Familial Nephrotic Syndrome caused by COQ2 mutations, an inherited mitochondriopathy
Milena Voskanyan1, Sofi Sarinyan1, Ariana Gasperts2, Carsten Bergmann1, Stefan Weber1, Ernst Leumann1, Ashot Sarkissian1
1Nephrology Department, “Arabkir” Medical Centre, Yerevan, Armenia and Yerevan State Medical University, Yerevan, Armenia (AM); 2Institute of Pathology and Molecular Pathology, University Hospital Zurich, Zurich; 3Bioscientia, Center for Human Genetics, Ingelheim and Department of Nephrology, University of Freiburg, Freiburg, Germany (DE); 4University Children’s Hospital, Philipps University of Marburg, Marburg, Germany (DE); 5University Children’s Hospital, Zurich

P 05 The Effect of Dietary Amino Acids on Chronic Kidney Disease Progression (NCCR Project)
Samyuktha Pillai, Simone Camargo, François Verrey
University of Zurich, Zurich

P16  **Airborne interstitial nephritis**

*Stefan Kalbermatter*, Anne Tschercher, Peter Graber, Marc Gutmann, Helmut Hopfer, Denes Kiss

1 Division of Nephrology, Kantonsspital Baselland, Basel; 2 Division of Cardiology, Kantonsspital Baselland, Basel; 3 Institute for Pathology, University Hospital Basel, Basel

P17  **Acute kidney injury in a tertiary hospital: can we learn from medical coding?**

*Petra Wiedmann*, Aurelia Schnyder, Christian Bucher, Dimitri Tsinalis

1 Medical controlling, Kantonsspital St Gallen, St. Gallen; 2 Nephrology and Transplantation medicine, Kantonsspital St Gallen, St. Gallen

P18  **Risk of brain ischemia due to carotid artery stenosis in the very elderly treated with antihypertensives: a hospital survey**

*Jürgen Bohlender*, Jürg Nussberger, Beate Bohlender

1 Department of Nephrology, Hypertension and Clinical Pharmacology, Inselspital, University Hospital, Bern; 2 Angiology Service, Centre Hospitalier Universitaire Vaudois, Lausanne; 3 General practitioner, Germany

P19  **Assessment of vascular age with a cuff-based oscillometric method in southern switzerland: results from a drugstore survey.**

*Rosaria Del Giorno*, Luca Bianda, Luca Gabutti

1 Department of Internal Medicine and Nephrology, San Giovanni Hospital, Bellinzona; 2 Farmacie Spaziosalute, Bissone

P20  **Acute regulated expression of pendrin in human urinary exosomes (UEs)**

*Ganesh Pathare*, Nasser Dhayat, Nilufar Mohebbi, Carsten Wagner, Daniel Fuster

1 University Hospital of Bern, Division of Nephrology, Hypertension and Clinical Pharmacology and Institute of Biochemistry and Molecular Medicine, Bern; 2 University Hospital of Bern, Bern; 3 Division of Nephrology, University Hospital, Zurich, Zurich; 4 Institute of Physiology, University of Zurich, Zurich

Poster presentations

P21  **Assessing the contact-activation of coagulation during hemodialysis with three different polysulfone filters: a prospective randomized cross-over trial.**

*Igor Salvadé*, Rosaria Del Giorno, Gaetano Lucio Donato, Luca Gabutti

1 Division of Nephrology, Ospedale La Carità, Locarno; 2 Department of Internal Medicine, Nephrology and Dialysis Unit, Regional Hospital of Bellinzona and Valli, Ente Ospedaliero Cantonale (EOC), Bellinzona

P22  **Randomized double-blind placebo-controlled trial assessing the efficacy of standard and low dose hydrochlorothiazide treatment in the prevention of recurrent nephrolithiasis – the "NOSTONE trial"**

*Nasser Dhayat*, Olivier Bonny, Florian Buchkremer, Thomas Ernandez, Min-Jeong Kim, Irene Koneth, Nilufar Mohebbi, Beat Roth, Carlo Schoenholzer, Sven Trelle, Daniel Fuster
