Invitation 2019

Dear Colleagues,

Welcome to the 2019 annual meeting of the Swiss Society of Nephrology in Interlaken. This is the 51st annual meeting of the SSN and therefore we celebrate the 50th birthday of our society this year.

The traditional CME on Wednesday is organized by the Scientific Commission and chaired by Gregoire Würzner and Olivier Devuyst. Expect interesting talks on the topic of "Fluid and Electrolyte Disorders". In parallel, we offer a hands-on renal ultrasound refresher course for residents in training. There is a limit of 20 participants and a small fee for the hands-on course.

For the main program, we have invited speakers working at the edge of renal replacement therapy. Nathan W. Levin and his wife Linda Donald, New York, will present their project "Easy Water for Everyone", i.e. using dialysis filters to provide clean drinking water for remote villages in Ghana. Rheopheresis, a therapeutic option not yet available in Switzerland will be presented by Thomas Robert on Thursday.

Looking even further into the future, Inge Katrin Herrmann from the Nanoparticles System Engineering Laboratory (ETH Zürich) and EMPA will discuss future possibilities of magnetic blood purification.

A special satellite symposium for nurses will be held in parallel to the main program with interesting talks from all regions of Switzerland and a workshop on the use of ultrasonography for fistula cannulation. As in previous years, these talks will be open for physicians as are the talks of the main program for nurse.

We encourage you to attend the oral presentations and poster sessions, reflecting the vivid scientific activity of the swiss nephrology community and the SSN members. The usual poster walk takes place on Thursday evening. Also, our industry partners have taken great care to support the society meeting and to sponsor symposia with high scientific value that should attract a wide audience.

Please join us for our 50th birthday celebration, honoring the four remaining founders of our society on Friday morning. In addition, Ernst Leumann will also become an honorary member of our society for his outstanding contribution to pediatric nephrology.

Looking forward to seeing you in Interlaken.

Onsite registration also possible (onsite fee)

Registration fees for SGN congress	Early bird fee (before Nov. 4, 2019)	Late fee (Nov. 5-Dec. 1, 2019)	Onsite fee (From Dec. 2, 2019)
Member SGN	CHF 260.00	CHF 300.00	CHF 350.00
NON-member SGN	CHF 380.00	CHF 420.00	CHF 470.00
Students*	CHF 100.00	CHF 100.00	CHF 100.00
Spezialisierte Pflege	CHF 100.00	CHF 120.00	CHF 150.00
Residents*	CHF 150.00	CHF 150.00	CHF 150.00
NCCR-Member	CHF 150.00	CHF 150.00	CHF 150.00

The registration fee includes: access to the scientific sessions, congress documents and lunches. The Congress Dinner is not included and has to be booked separately when registering (CHF 90.00). Places are limited and a reservation is required.

*In order to benefit from the reduced fee, students or residents are required to send a document confirming their status to the SGN-SSN Congress Management by fax or scanned within 7 days from the date of registration.

Registration fees for Symposium 4.12.19	Early bird fee (before Nov. 4, 2019)	Late fee (Nov. 5-Dec. 1, 2019)	Onsite fee (From Dec. 2, 2019)
Basics in Nephrology	CHF 100.00	CHF 120.00	CHF 150.00
Renal Ultrasound course for nephrologists (theoretical update & hands on exercises) – limited places to 20	CHF 200.00	CHF 200.00	CHF 300.00

Congress Dinner 5.12.19 CHF 90.00 TTC (limited places)

General information

Payment Upon registration you will receive a confirmation by email together with the banking details for the payment. Payment by credit card upon registration is possible.

Certificate of participation The certificate of participation will be sent by secure PDF to all participant after the event.

Cancellation Written notification is required for all cancellations and changes. In case of cancellation 30 days prior the event, the refund of the amount paid will be done net of CHF 60.00 for administrative costs. Thereafter no refund possible. Any registration made within the "early bird" time must be paid during this period. If not the case, the invoice is automatically updated at the current price. Administrative costs will be charged to no shows. Legal jurisdiction is Lausanne.

Industrial exhibition An industrial exhibition will take place at the Congress Venue. It will be open throughout the congress. Coffee (breaks) will be offered by exhibitors.

Hotel booking Hotel reservation possible with Interlaken Tourismus on www.interlaken.ch.

Oral Presentations The Scientific Committee will select a number of abstracts which will be presented as oral presentations.
Speaking time: 8 min and 2 min discussion.

Posters The abstracts accepted as poster will be presented in the poster exhibition. The poster needs to be written in English.
The poster format is DIN A0 (portrait – 120 cm height x 85 cm width).

General information

Posterwalk

There will be an organized Posterwalk on Thursday, December 5, 2019, from 17 h 45 to 18 h 30 where the highest rated posters in each category will receive the Poster Prize Award:

- Basic Science / Genetics / Experimental Nephrology
- Transplantation
- Clinical Nephrology / Hypertension / Mineral / Electrolytes
- Hemodialysis (HD) / Peritoneal Dialysis (PD)

we thank each author to be present near his/her poster during the posterwalk

Poster Prize Awards

The four highest rated posters will receive a poster award during the Congress Dinner on December 5, 2019.

Registration

Authors presenting an accepted paper or poster must register and pay the appropriate registration fee.

Credits

Credits points will be given by the following societies:

SGN-SSN Congress, December 5-6.12.2019

SGN-SSN 16 credits
SGAIM-SSMIG in demand

Basics in Nephrology, December 4.12.2019

SGN-SSN 4 credits
SGAIM-SSMIG in demand

Hands-On Renal Ultrasound Refreshment Course

SGN-SSN 2 credits for theoretical part
2 credits for practical part

Language

Lectures in English, discussion in German, French or English.

The Symposium “Pflege in der Nephrologie” will be held in German, French and Italian.

17.00	Conclusion of CME

Hands-On Renal Ultrasound Refreshment Course

For nephrologistst in training

Key audience Nephrologist in training (but also experienced) who are interested in renal ultrasound can participate.

Objective This is a SGN-accredited, comprehensive half-day training course that includes both didactic and practical training in basic ultrasonography aspects for the young nephrologists. This training covers only the basic aspects of ultrasonography for nephrologists.

By the end of the course, participants will be able to detect common and less common abnormalities of the native and transplant kidneys, measure renal resistive index, and will have updated their skills on US guided placement of central lines and kidney biopsies.

Program Two hours on the basics and update on ultrasound methods and diagnostics. Two hours of "hands on" exercises on volunteer and 4 patients in 5-persons per group under the guidance of experienced sonographers, open to 20 principle "first come first served".

Organization SGN/SSN ultrasound commission

Instructors Prof. Spyridon Arampatzis, Bern; Dr Felix Burkhalter, Liestal & Bruderholz; PD Dr Belen Ponte, Geneva; PD Dr Menno Pruijm, Lausanne, Dr Joscha von Rappard, Lucerne.

Language English

Participation limited to 20

Costs CHF 200.00 (for the HANDS ON Course)

Credits 4 (2 for theoretical part, 2 for practical part)

From 12.00 Registration

13.00-15.00 THEORETICAL UPDATE

13.00-13.25 Introduction and Update renal US techniques – **Spyridon Arampatzis**, Bern

13.25-13.50 Diagnostic pearls-native kidney – **Menno Pruijm**, Lausanne

13.55-14.20 Diagnostic pearls-transplant kidney – **Felix Burkhalter**, Liestal & Bruderholz

14.20-14.40 US-guided central line placement, AV fistula cannulation and renal biopsies

Belen Ponte, Genève

14.40-15.00 Lung Ultrasound and Bedside US-techniques – **Joscha von Rappard**, Lucerne

15.00-15.30 Coffee break

15.30-17.45 HANDS ON Course

15.30-17.25 Practical exercises with healthy volunteers, patients and models

17.25-17.45 Final discussion and debriefing

Friday, December 6

10.30-10.45	SGN-SSN Publication Award 2019 <i>Chair: Olivier Devuyst, Zurich</i> Presentation and short address Alessandro Luciani, Zurich Impaired autophagy bridges lysosomal storage disease and epithelial dysfunction in the kidney		Room A
10.45-11.15	Coffee break – Visit of the exhibition – Poster viewing		Exhibition space
11.15-12.00	State of The Art Lecture <i>Chair: Uyen Huynh-Do, Bern</i> Magnetic Blood Purification: From Concept to Clinics? Inge Katrin Herrmann, ETHZ Zurich		Room A
12.00-12.15	Short break		
12.15-13.15	Exclusive Symposium Sponsored by OTSUKA		Room A
	EXPLORE THE ROLE OF TOLVAPTAN IN VERY DISTINCT DISEASE AREAS		
12.15	Welcome and introduction Pierre-Yves Martin, Geneva		
12.20	Time for an interim review in ADPKD! Rudolf P. Wüthrich, Zurich		
12.40	Time for a NEW option in Hyponatremia due to SIADH? Volker Burst, Köln (DE)		
13.00	Q&A session moderated by Pierre-Yves Martin, Geneva		
13.15-14.00	Lunch snacks – Visit of the exhibition – Poster viewing		Exhibition space

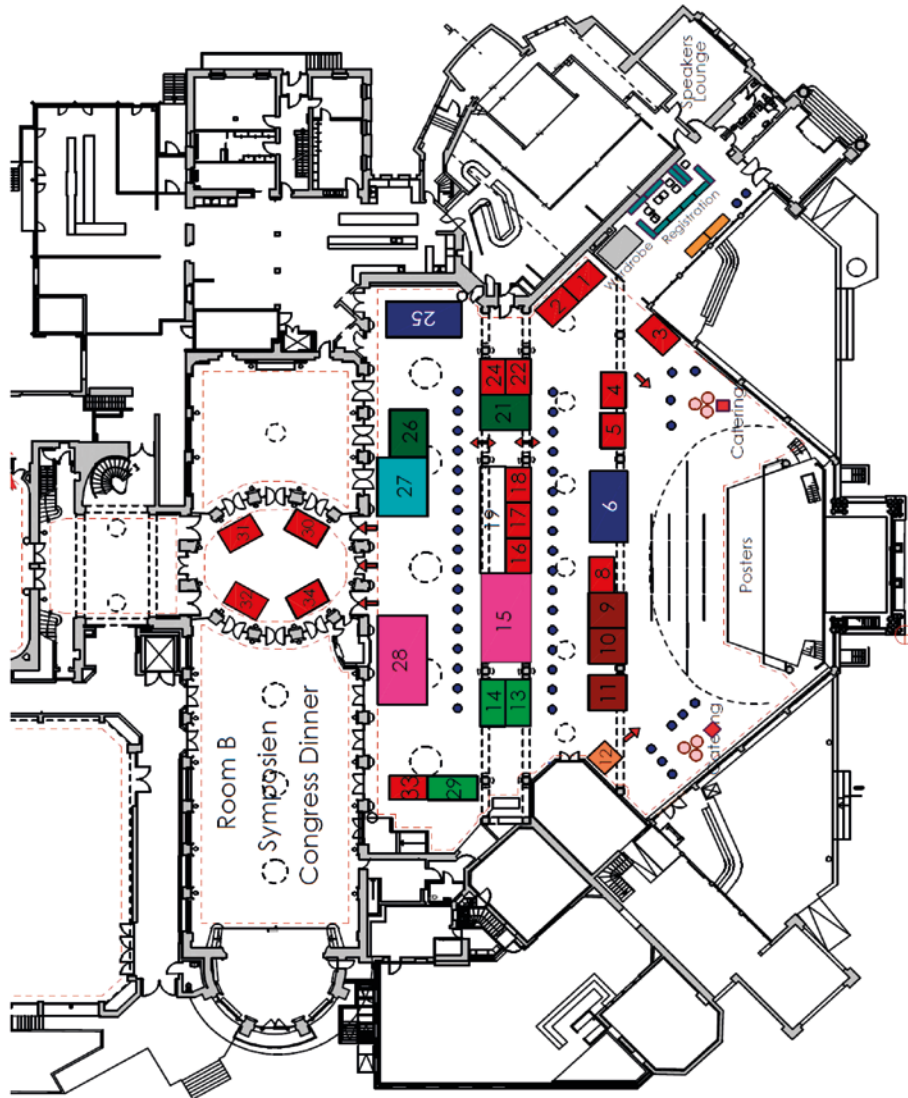

Friday, December 6

14.00-15.00	ORAL PARALLEL PRESENTATIONS	
14.00-15.00	Clinical Nephrology / Hypertension / Mineral / Electrolytes	Room A
	<i>Chairs: Belen Ponte, Geneva; Claudia Ferrier, Lugano</i>	
	6 oral presentations	
OC 13	Doppler and contrast-enhanced ultrasound responses to a cold pressure test in healthy normotensive participants – Mariëlle Hendriks-Balk, Lausanne	
OC 14	Diffusion MRI predicts a worse outcome in CKD and kidney allograft patients independently of eGFR – Lena Berchtold, Geneva	
OC 15	Pregnancy as a trigger for diagnosis of unknown maternal diseases: the importance of early detection – Fausto Bontadelli, Bern	
OC 16	Acute and chronic effects of sodium/glucose cotransporter 2 inhibition with empagliflozin on renal oxygenation in non-diabetic volunteers. A randomized, double-blind, placebo-controlled study – Menno Pruijm, Lausanne	
OC 17	An algorithm for the metabolic evaluation of calcium oxalate stone formers – Edward Pivin, Lausanne	
OC 18	Uric acid containing stones within the Swiss Kidney Stone Cohort - NCCR Kidney.CH – Olivier Bonny, Lausanne	

Friday, December 6

14.00-15.00	Hemodialysis (HD) / Peritoneal Dialysis (PD)	Room B
	<i>Chairs: Giuseppina Sparta, Zurich; Ann-Kathrin Schwarzkopf, Bern</i>	
	6 oral presentations	
OC 19	Monthly measurement of high-sensitivity cardiac troponins T (hs-cTnT) and creatine kinase (CK and CK-MB) in asymptomatic chronic haemodialysis patients: a one-year study – Stéphane Gremaud, Fribourg	
OC 20	Plasma proteomics identifies VEGFD as a biomarker of fluid overload in hemodialysis patients – Seraina von Moos, Zurich	
OC 21	Incremental hemodialysis: a single center experience – Patrick Saudan, Geneva	
OC 22	Hepatitis E virus prevalence in a small rural dialysis unit – Anita Stauffer, Zweisimmen	
OC 23	Identifying factors associated with mortality in young patients on chronic hemodialysis – a machine learning approach – Verena Gotta, Basel	
OC 24	Anemia management in dialysis patients in Switzerland – Rebecca Winzeler, Zurich	
15.00-15.30	Coffee break – Visit of the exhibition – Poster viewing	Exhibition space
15.30-16.30	Hot Topics and Updates 2019	Room A
	<i>Chair: Uyen Huynh-Do</i>	
15.30-15.50	Dialysis Stephan Segerer, Aarau	
15.50-16.10	General Nephrology Seraina von Moos, Zurich	
16.10-16.30	Transplantation Thomas Müller, Zurich	
16.30	Farewell Dominik Uehlinger, Bern; Patrick Wilson, Delémont	Room A

Cablivi[®]
caplacizumab

Acquired Thrombotic
Thrombocytopenic Purpura (aTTP)
is a medical emergency.
Early diagnosis and treatment
prevents unnecessary early
deaths in aTTP.¹

1. Scully M et al., Guidelines on the diagnosis and management of thrombotic thrombocytopenic purpura and other thrombotic microangiopathies. Br J Haematol. 2012 Aug;158(3):323-35.

Cablivi 10 mg powder and solvent for the preparation of a solution for injection:

AI: Caplacizumab 10 mg. **I:** Treatment of adults suffering from an episode of acquired thrombotic thrombocytopenic purpura aTTP in conjunction with plasmapheresis and immunosuppression. **D:** Initial dose 10 mg i.v. prior to plasmapheresis; subsequent doses 10 mg s.c. after completion of every plasmapheresis, then 10 mg s. c. daily for up to 30 days after finishing the daily plasmapheresis treatment. A forgotten dose can be made up for within the next 12 hours. **Contraindication:** Oversensitivity. **Cautionary measures:** No data available for children and adolescents or on patients with severe liver dysfunction. An adjustment of the dose or particular cautionary measures may be necessary with older patients. In the case of active clinically relevant bleeding, treatment should be discontinued. Patients with coagulopathy must be closely monitored. Discontinue therapy at least 7 days before planned operations or dental interventions and inform the surgeon. In emergency operations the use of a von Willebrand factor concentrate can be considered. **Interaction:** platelet aggregation inhibitors, anticoagulants, low molecular weight heparin; due to potentially raised risk of haemorrhage, careful consideration and close monitoring. **Side effects:** Epistaxis, headaches, bleeding, tiredness, urticaria, fever. **P:** 1 vial with 10 mg powder and 1 pre-filled syringe with solvent. **Med. class:** B. **MAH:** sanofi-aventis (suisse) sa, 1214 Vernier. (GZCH.CAPL.19.08.0136(1)) **Updated:** October 2019.
