Programm

Murtener Nephrologie Tage 2015

Schweizerische Gesellschaft für Nephrologie SGN-SSN

Schweizerische Nierenstiftung

Klinik für Nephrologie, Hypertonie und Klinische Pharmakologie, Inselspital Bern

17.-18. April 2015

Hotel Schiff am See, Murten

Dear colleagues and friends

It is our great pleasure to invite you again to the second “Murtener Days”, a Continuous Medical Education of the Swiss Society of Nephrology. For that purpose, we will meet once more in the beautiful small town of Murten/Morat.

Apart from the originality and width of the scientific program, the “Murtener Days” should give to all nephrologists, especially the younger ones, the opportunity to interact with each other and with partners from the industry. Once again we would like to take this unique opportunity to establish a fund raising events for the Swiss Kidney foundation. Thus the CME *per se* will not be sponsored by the industry, instead we have asked for financial support of the Swiss Kidney Foundation. We would like to express our gratitude to all our sponsors, since the Swiss Kidney Foundation plays a crucial role in financing kidney research and information campaigns throughout our country.

The key word this year is “updates with a twist”. As you well know guidelines and recommendations have invaded our daily practice, although it is not always clear if it is for the best or for the worse! Thus we would like to review hot topics and determine what evidence there is in the treatment of our patients. The spectrum will range from adequacy in dialysis to vaccination, to anti HCV therapies in kidney disease and where do we stand regarding lipids in CKD.

If you are struggling with evidence-based medicine in nephrology or if you question the relevance of some guidelines then welcome to the Murtener Days 2015!

Prof. Dr. med. Uyen Huynh-Do
Leitende Ärztin

Dr. med. Isabelle Binet
Schweizerische Nierenstiftung

Speakers

Prof. Dr. med. Emanuel Christ, Poliklinik für Endokrinologie, Diabetologie und Klinische Ernährung, Inselspital Bern
