

POSTER PRESENTATIONS

BASIC SCIENCE, GENETICS, EXPERIMENTAL
NEPHROLOGY & NCCR KIDNEY.CH

P 01 – P 10

P 01

Role of monogenetic genes in nephrolithiasis* - Manuel Anderegg, Bern

P 02

Peroxisomes are dispensable for normal renal function* - Yohan Bignon, Lausanne

P 03

Role of the phosphate transport facilitator XPR1 in bone homeostasis and phosphate-dependent FGF23 secretion- NCCR Kidney.CH* – Daniela Cabuzu, Lausanne

P 04

Post-transcriptional regulation of TWEAK and its consequences on the kidney allograft outcome* - Andrea Karolin, Bern

P 05

Chronic hypoxia reduces the expression of the anti-aging proteins Klotho and Sirt6 in mice and humans – Stefan Rudloff, Bern

P 06

Osteoblast-specific deletion of Memo1 in mice severely impairs the expression of FGF23 (NCCR-Kidney.CH project)* - Katalin Bartos, Bern

P 07

Deleting the TGF- β receptor impairs proximal tubule metabolism and response to chronic injury* - Stellor Nlandu Khodo, Zürich

P 08

Single cell profiling in COVID-19 associated acute kidney injury reveals patterns of tubule injury and repair in human* - David Legouis, Geneva

P 09

Use of deep-learning to calculate glomerular number, size and density in regular histopathology biopsies show no differences between women and men* - Nadine Ngatchou, Lausanne

P 10

Dietary consumption in the Swiss Kidney Stone Cohort - NCCR Kidney.CH*
Constance Legay, Lausanne

POSTER PRESENTATIONS

TRANSPLANTATION

P 11 – P 19

P 11

Impact of different urinary tract infection phenotypes within the first year post-transplant on renal allograft outcomes – Jakob Brune, Basel

P 12

Aftercare by external nephrologists suggests excellent outcomes regarding gfr decline and proteinuria, whereas aftercare by the transplant center ensures prompt biopsy-confirmed diagnoses of allograft dysfunction* - Yves Kaufmann, Zürich

P 13

Gait speed as single fried frailty phenotype item predictive for length of stay but not readmission in kidney transplantation: a secondary data analysis of a multicenter, prospective cohort study* - Nadine Beerli, Cynthia Gschwing ; Basel

P 14

Estimating the expected serum creatinine range may identify kidney transplant recipients with allograft dysfunction* - Laurenz Matter, Zürich

P 15

hla-derived epitope mismatching may prove useful as a predictive biomarker among kidney transplant recipients with rejection: an analysis of indication and follow-up biopsies*
Tham Sptiznagel, Zürich

P 16

Short- and long-term impact of neutropenia within the first year after kidney transplantation
Leonore Ingold, Basel

P 17

Analysis of DCD Porcine Kidney Graft Viability during Sub-Normothermic Perfusion using Magnetic Resonance Imaging and Spectroscopy* - Thomas Agius, Lausanne

P 18

Age at time of kidney transplantation as a predictor for mortality, graft loss and self-rated health status: a competing risks survival analysis of the Swiss Transplant Cohort Study *
Nadine Beerli, Basel

P 19

Terminal transplant failure due to Covid-19 associated nephrotic glomerulonephritis
Andreas Bock, Aarau

POSTER PRESENTATIONS

CLINICAL NEPHROLOGY, HYPERTENSION
MINERAL, ELECTROLYTES

P 20 – P 47

P 20

A small deletion with a large impact – Julia Meier, Harald Seeger ; Zürich

P 21

Pooled efficacy and cardiovascular safety results of roxadustat compared with placebo/darbepoetin alfa for treatment of anaemia in patients with non-dialysis-dependent (NDD) chronic kidney disease (CKD) – Nada Dimković, Belgrade (Serbia)

P 22

Validation of [TIMP-2]·[IGFBP7] to Predict Acute Kidney Injury in Emergency Department Patients – a diagnostic accuracy study* - Matthias Diebold, Basel

P 23

Health-related quality of life in Fabry disease: a cross-sectional international multicenter study* - Albina Nowak, Zürich

P 24

Renal biopsy findings in patients with isomorphic microscopic hematuria and low-grade proteinuria – Should we extend the indications for renal biopsy?* - Shuyang Traub, Basel

P 25

Accuracy of flash glucose measurement in hemodialysis patients with and without diabetes mellitus* - Michele Weber, Frauenfeld

P 26

Variability and Reproducibility of urinary electrolytes and free water excretion on repeated 24h urinary collections in Young Healthy Human* – David Jaques, Geneva

P 27

A phase 2 study to evaluate the efficacy and safety of pegcetacoplan in the treatment of patients with posttransplant recurrence of C3G or IC-MPGN – Fadi Fakhouri, Lausanne

P 28

Endocrine Disorders in Patients with Fabry disease: Insights from a reference centre prospective study* - Christina Bothou, Zürich

POSTER PRESENTATIONS

P 29

Difference between office blood pressure and day ambulatory blood pressure at a given level: can it be predicted?* - Matthieu Halfon, Lausanne

P 30

Variability of 24-hour urinary sodium and volume excretion in young healthy male subjects based on consecutive urine collections: impact on categorization of salt intake*
David Jaques, Geneva

P 31

Introducing entrustable professional activities in swiss nephrology training
Suzan Dahdal, Bern

P 32

COVID-19 infection in Fabry disease : a systematic cohort study* - Albina Nowak, Zürich

P 33

Tubulointerstitial nephritis and uveitis syndrome: a systematic review*
Alessia Regusci, Bellinzona

P 34

Phase 3, randomized, multicenter study to evaluate the efficacy and safety of pegcetacoplan in treatment of C3G or IC-MPGN – Fadi Fakhouri, Lausanne

P 35

Recurrent kidney stones behind a rare genetic disease: A case report of a Beckwith-Wiedemann Syndrome – Federica Bocchi, Bern

P 36

Adrenal pheochromocytoma, a rare cause of arterial hypertension in a patient with autosomal dominant polycystic kidney disease – Adelina Ameti, Lausanne

P 37

Estimating Baseline Serum Creatinine for the Diagnosis and Classification of Acute Kidney Injury – Forian Buchkremer, Aarau

P 38

Successful conservative management in two pediatric cases of xanthogranulomatous pyelonephritis – Anna Maria Libudzic-Nowak, Lausanne

P 39

minimal change disease (MCD) after Moderna COVID-19 vaccination*
Nadia Fehr, Linda Berney-Meyer ; Baden

POSTER PRESENTATIONS

P 40

Chronic kidney disease after domino liver transplantation using organs from donors with hereditary transthyretin amyloidosis: a case-report – Curzio Solca, Lugano

P 41

Safety data of percutaneous kidney biopsies: a ten-year single center cohort study
Christian Bucher, St.Gallen

P 42

cANCA-glomerulonephritis secondary to bartonella henselae endocarditis (cat scratch disease) – Linda Berney-Meyer, Andrea Fisler ; Baden

P 43

Failure to Thrive in Infants – Nephrologists to the Rescue* - Caroline Prost, Zürich

P 44

IgG4-Related kidney (IgG4-RKD) disease: a systemic disease with many faces
Maja Causevic, Bern

P 45

NSAIDs, Dehydration and acute kidney failure in the young adults: An unrecognized entity?
Cecilia Czerlau, Bern

P 46

Coronary angioplasty and stenting in acute coronary syndromes with very low contrast volume using Cordis 6F diagnostic catheters and improved cardiovascular and renal outcomes
Mark Christopher Arokiaraj, Pondicherry (India)

P 47

A case study on management of postoperative cardiorenal syndrome
Julija Voicehovska, Riga (Latvia)

POSTER PRESENTATIONS

HEMODIALYSIS (HD) / PERITONEAL DIALYSIS (PD)

P 48 – P 54

P 48

Demography of the dialysis population in Switzerland in 2020
Rebecca Guidotti, Zürich

P 49

Hematologic factors associated with favourable long-term outcomes in paediatric patients with chronic kidney disease (CKD) on maintenance haemodialysis (HD)*
Klervi Golhen, Verena Gotta, Basel

P 50

The frailty process in CKD patients: analysing the role of haemodialysis
Damiano Zemp, Mendrisio

P 51

Sacubitril/Valsartan in hemodialysis patients with heart failure
Anne Michel, Liestal

P 52

Blood flow with three different lock solutions in the dialysis permcath™ using the Tego® connector system – an observational survey*
Cäcilia Jäger, Basel

P 53

Light-chain amyloidosis treated with the novel medium cut-off Theranova dialyzer
Jan Brügger, Horgen

P 54

Extreme uremic pruritus and xerosis cutis in a dialysis patient improved after switching to expanded hemodialysis with a medium cut-off Theranova membrane
Jan Brügger, Horgen

INDEX OF AUTHORS

Last name	First name	OC/P
Agius	Thomas	P 17*
Ameti	Adelina	P 36
Anderegg	Manuel	P 01*
Arokiaraj	Mark Christopher	P 46
Bartos	Katalin	P 06*
Beerli	Nadine	P 13*
Beerli	Nadine	P 18*
Berney-Meyer	Linda	P 42
Berney-Meyer	Linda	P 39*
Bignon	Yohan	P 02*
Bocchi	Federica	P 35
Bock	Lukas	OC 25*
Bock	Andreas	P 19
Bothou	Christina	P 28*
Brügger	Jan	P 53
Brügger	Jan	P 54
Brune	Jakob	P 11
Bucher	Christian	P 41
Buchkremer	Florian	P 37
Cabuzu	Daniela	P 03*
Causevic	Maja	P 44
Czerlau	Cecilia	P 45
Dahdal	Suzan	P 31
Dhayat	Nasser A.	OC 16
Diebold	Matthias	P 22*
Dimković	Nada	OC 13
Dimković	Nada	P 21
Fakhouri	Fadi	OC 15
Fakhouri	Fadi	P 27
Fakhouri	Fadi	P 34
Farese	Stefan	OC 18
Fehr	Nadia	P 39*
Fisler	Andrea	P 42
Golhen	Klervi	P 49*
Gotta	Verena	P 49*
Gschwind	Cynthia	P13*
Guidotti	Rebecca	OC 19
Guidotti	Rebecca	P 48
Halfon	Matthieu	OC 11*
Halfon	Matthieu	P 29*
Harmacek	Dusan	OC 05
Hendriks-Balk	Marielle	OC 17
Hübel	Kerstin	OC 07
Ingold	Leonore	P 16
Jäger	Cäcilia	P 52*
